CSAHS Academic Excellence Fund: Undergraduate and Graduate Scholarships

Our goal is to raise $1,000,000 to increase the financial support available to College of Social and Applied Human Sciences (CSAHS) students and recognize and reward their excellence. Currently, more support is needed to attract, develop, and retain top talent including domestic and international students.

**Impact Statement:**
Enhancing student scholarships and awards geared to academic performance is an indicator of academic excellence. Scholarships also provide much needed financial support and allow students to focus on their studies.

The University of Guelph has a reputation of providing high quality education. Support for these scholarships will ensure that CSAHS students receive the funding, recognition and opportunities they greatly deserve.

**Goals:**
Providing awards and scholarships that reward and recognize academic excellence is an important aspect of supporting students. Some programs in the College are underrepresented in our current scholarship offerings.

Support for these scholarships would focus on:
- Addressing inequity of scholarships across the college
- Recruitment of international students at BA, MA, and PhD levels
- Recruitment and retention of undergraduate students
- Supporting student success by alleviating financial pressures
